

XODUS CARNIVAL PRESENTS

DIGINERDS · CARNIVAL PLATFORM

Your band. Your storefront.

Costume sales, deposits, payment plans and pickup day — in one platform built for mas bands.

SEE THE COSTUMES

THE CHALLENGE

Registration season shouldn't run on DMs and spreadsheets

Deposits and balances

Tracking who paid what — and who still owes — by hand across months.

Sizes, options and add-ons

Bra, bottom, backpacks and drinks packages collected over chat and re-typed.

Changes and disputes

Masqueraders asking to switch sections, chargebacks, no clear audit trail.

Costume pickup day

Long lines, paper lists, and no quick way to verify who a costume belongs to.

ONE PLATFORM, TWO SIDES

A storefront your masqueraders love, a back office your team trusts

FOR MASQUERADERS

YOUR ACCOUNT

Sign in or create an account

One address, one six-digit code. It signs you in — and if this is your first crossing, it makes your account at the same time.

 A single-use code, never a password — nothing to reuse, nothing to leak.

 Codes expire minutes after they are sent, and only the newest one works.

 Your orders, passes and change requests follow the address, on any device.

STEP 1 OF 2
Your email

EMAIL ADDRESS

 you@example.com

We use it to send your code, your receipt and your order updates — nothing else.

SEND VERIFICATION CODE

No passwords

A single-use email code signs in or creates the account.

Early-access passes

Sell pre-registration so loyal members secure sections first.

Self-service

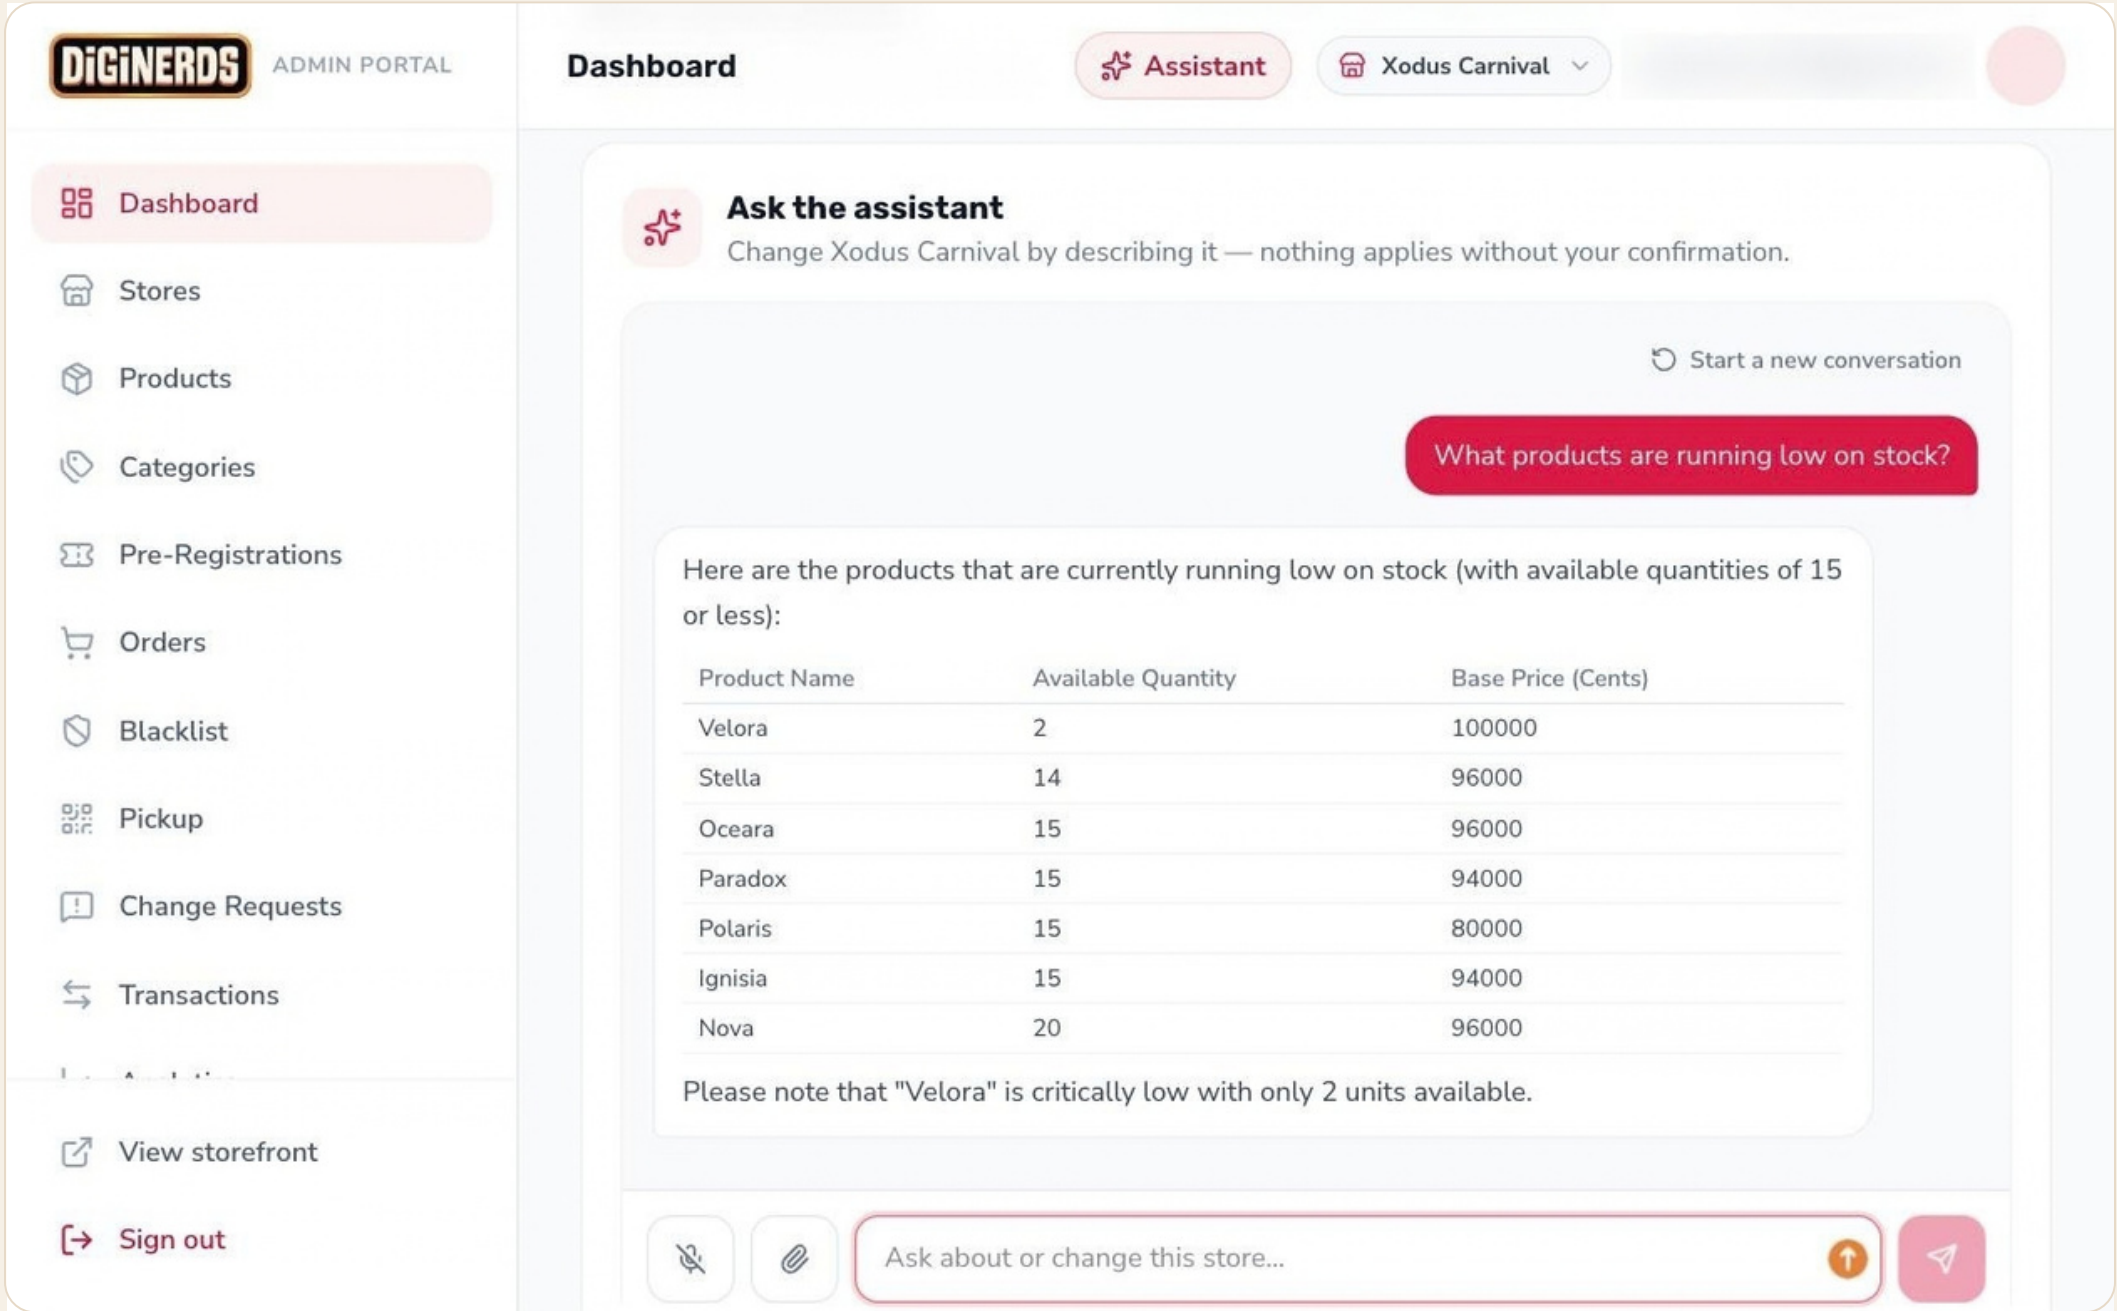

Track orders, pay balances and request changes from any device.

PART TWO

The admin portal

Everything your band committee needs — from launch day to costume pickup.

Run the store by just asking

Ask in plain English

"What's running low on stock?" — answered from live store data.

Make changes safely

Describe an edit; nothing applies until you confirm the preview.

Drop in files

Drag images onto a product or import a CSV/Excel sheet of sections.
